

Green Power

Industrial deployment of most advanced & energy efficient Power Semiconductor products and manufacturing technologies

Programm / Ausschreibung	IPCEI, IPCEI, IPCEI Mikroelektronik II Ausschreibung 2022	Status	laufend
Projektstart	01.10.2021	Projektende	30.09.2026
Zeitraum	2021 - 2026	Projektlaufzeit	60 Monate
Keywords	IPCEI Mikroelektronik		

Projektbeschreibung

siehe englischer Abstract

Abstract

The goal is to progress the state of the art in Advanced Manufacturing of power semiconductor devices by integrating major and challenging R&D&I activities along the value chain in all work packages of the workstream ACT within IPCEI ME/CT

Projektpartner

- Infineon Technologies Austria AG
